

## Voucher Processing System (VPS) Product Information Sheet

### What Is VPS?

VPS stands for Voucher Processing System. It is a solution that allows Wholesalers and Counting House to electronically process their vouchers. The term 'processing vouchers' encompasses the counting of vouchers, the subsequent claims generation to the voucher's publisher, the relevant credits to the retailer, and full reporting over the whole process.

### What sets VPS apart from the competition?

Binary Star worked alongside several wholesalers and publishers when designing the specification for their ideal Voucher Processing solution. We tailored the software to their exact needs at that time, and over the past 5 years since the initial release, we have made sure that the software is kept regularly updated in line with the rapidly evolving industries requirements and standards.

One feature that sets VPS apart from our customers is the innovative two scanner solution. Our custom scanner cradles contain two scanners, allowing the operator to scan both sides of a voucher at once. This process yields a massive increase in scanning productivity, as it saves the operator from having to scan each side separately (for example in the case of many magazine/newspaper vouchers which commonly have an EAN voucher code and a PIN code on alternate sides).

### Could you give me a summary of VPS's main features?

- Electronic Scanning of Vouchers using a custom two scanner cradle solution.
- Automatic Credits and Claims Generation
- Multiple User Accounts, allowing generation of performance statistics per operator.
- Clear concise reporting/auditing at every stage
- A user-friendly software environment for administrator and voucher scanner alike.
- Flat-file and ADODB connectivity with existing wholesaler systems.
- Plug-in technology allows the easy addition of a wide variety of extra functionality.
- Pre-defined claim exports for the major UK voucher publishers.

### Where could I find more information about VPS?

There are several methods; you can contact Binary Star direct via any of the following methods:

#### Email

Technical Questions: [tech@binarystar.co.uk](mailto:tech@binarystar.co.uk)  
Sales Information: [chris@binarystar.co.uk](mailto:chris@binarystar.co.uk)

#### Telephone / Fax

Office Number (9-5 Weekdays) 0116 2427000  
Fax (24hr) 0116 2427001

#### Website
